

MHTN
ARCHITECTS

Landscape Architect

MHTN Architects in Salt Lake City is seeking a licensed Landscape Architect with 3+ years experience, to work with landscape architects, architects, engineers, surveyors, and other technicians in the development of design and construction documents. Project involvement will range from initial concept design/planning (with an emphasis on design capabilities), schematic design, design development, construction documents and construction administration.

MHTN is a 65 person design firm specializing in the planning and design of K-12 Education, Higher Education, Healthcare, Corporate, Civic and Religious projects with decades of experience in-state and regionally, as well as across the nation and overseas. As a firm, we operate around core values of design, respect, client service, empowerment, accountability, teamwork, environmental responsibility, technical expertise, and community service. MHTN offers a collaborative work environment that promotes professional growth and advancement. We seek team members who have a passion for designing built environments and self-motivated contributors that will embrace and expand our culture.

We are searching for candidates who are well organized, creative, forward thinking, detail oriented and work effectively in a collaborative team environment while also working autonomously on given tasks. Candidates must also possess the following:

- Proven design capabilities which include exploration of concept design sketches to full site development; including a combination of hand-drawn and computer generated drawings and graphics.
- Developing Site Plan and Site Detail documents for agency submittal and review.
- Leadership and team management skills to meet project scope, budgets and schedule while collaborating with Project Managers to organize project and document production.
- Experience and understanding of engineering systems, equipment, technology requirements, detailing and how they relate to construction.
- Prepare landscape planting plans, irrigation plans and construction documents.
- Perform construction administration duties for conformance with design intent and construction documents.
- Responsibility for oversight of internal project budgets.
- Coordination with other design professionals, both internal and external.
- Local and possible international travel to project meetings and job sites as necessary.
- Experience with necessary codes and regulatory standards.
- Communicate effectively with project team.
- Proficiency with AutoCAD, Land FX, SketchUp, Adobe Creative Suite and MS Office.
- Bachelor's Degree in Landscape Architecture from accredited school and licensure.

Position offers a competitive compensation package including vacation, personal leave, health and 401k benefits.

Interested candidates are asked to submit for consideration samples of their work including; documented successful client, consultant and contractor relationships to Linda Kruse (linda.kruse@mhtn.com) along with their resumes.
